**Subject:** FW: Boston Drug Submissions question

Shirley-

I received your fax - thanks. I know that you said to change [REDACTED] to "3 broken tabs", but by looking at the drug receipt I think it should be the other way as the receipt indicates what color the tabs are for each DL# should be. The 3 broken tabs are pink, and therefore I will make that B11-05843. Likewise, the 3 tabs are white, matching [REDACTED]. I figure that this way 1. there is less information to change, and 2. it will match up the drug receipt better. I'll let Sharon know so she can make the changes in the database. Thanks for all of your help.

**Subject:** Boston Drug Submissions question

Hi-

I'm hoping that one of you could help me out with some North Attleboro samples I have been assigned. It is not clear to me which samples are which, and I'm hoping that the drug receipt might provide more information. Here's what I've got:

Submitted by North Attleboro on 5/19/11; defendants = [REDACTED]

What is on the cards:

[REDACTED] : EO wt = 15.28g - 3 tabs  
[REDACTED] : EO wt = 15.07g - 4.5 tabs

What I have:

#1: EO wt = 15.28g - 3 broken tab pieces (each approx.  $\frac{1}{2}$  tab), imprint = RDY 343 (citalopram)  
#2: EO wt = 15.11g - 3 tabs, imprint = alza 36 (methylphenidate)

Thanks for any help you can provide.

-Sonja
